

In addition to the Care Bill HR 2104, another important Bill to our profession has been introduced.

HR 3032 was introduced in the House by Rep. Dave Reichert (R-WA) along with Reps. Jim Matheson (D-UT), Ted Olson (R-TX) and Bill Pascrell (D-NJ). This is the bill that will reduce supervision levels that RAs must currently meet for their services to be paid the Medicare program and set a reimbursement level for RA services at 85% of the physician fee schedule rate.

As you know HR2104 the CARE bill, will increase patient safety by ensuring that personnel who perform medical imaging and radiation therapy procedures are properly educated and certified.

Please contact your Representatives to encourage them to support and become a co-sponsor for these two important Bills that will further our profession . Please go to the attached link.
